

RAP

PSNO Conference

October 20, 2008

Well here we are
We're the clean hands crew
Gotta little Rap
to show you what to do
You join in
when we reach the chorus
Gotta learn the words
and sing them for us
You Gotta
Stop
Protect your self
Clean your hands

Well we're the crew and we're here to say

You gotta learn

The clean hands way

What a lot?

How much you say?

Listen up! Learn the way!

Infection control

is the issue

The germs you leave behind are not going to miss you

They'll spread around

and then you'll wish you

Took the time to:

Stop

Protect Yourself

Clean your hands

Now you don't need music and you don't need bands

Just a simple message -

Clean your hands!

Before you start

and when you're through

in between and on the run, too

Each time you touch a resident

you stop and think!

Clean your hands

Don't be a skink

You gotta

Stop

Protect Yourself

Clean your hands
